

## **Freelance Design Director/ Lead (UK based)**

**£300 - £400 per day**

### **Role Overview:**

We are looking for an experienced digital Design Director/Lead with experience of the financial services, professional services, education and technology sectors. You must have a portfolio of award-winning pieces that span digital production, animation, social and editorial content.

You'll need to be very hands-on and able to deliver concepts on your own, yet still able to develop the work of more junior designers and out-sourced production teams. You'll also need to be comfortable dealing directly with clients and relish the opportunity to create best-in-class work, no matter how complicated the consumer messaging.

With clients based in both Europe and the US, this is a high visibility role. So, you will also need to be an organised, natural project leader and a true partner to the strategy, production and client management teams.

With responsibility for both concept development and executional excellence you'll need to be entirely fluent in the Adobe creative suite and have experience of all stages of the design, animation and film process.

### **About us:**

From complex subject-matter film content to deeply immersive interactive experiences, At Nucco we change perspectives and behaviour through powerful creative and emerging technologies.

Nucco is part of UNIT9 Group, one of the world's preeminent creative production and digital transformation companies.

**Application details:**

To apply please send your CV, a covering letter outlining your relevant experience, and your portfolio to [jobs@nuccobrain.com](mailto:jobs@nuccobrain.com). If we have not contacted you within two weeks please assume you have not been successful on this occasion.
